

Google Cloud Billing — Cost Table Statement (Fallback for Invoice)

Billing account: My Billing Account 1 (0175D2-C711EC-95C34D). Project: sloane-pearl-xprize. Period: August 2026 (current month; no closed invoice exists yet, per GCP's own policy of posting invoices ~5 business days after month-end). Exported directly from Console > Billing > Reports > Download CSV. This is the documented fallback for GCP Free Tier / low-usage accounts named in the submission requirements: "export the zero-dollar monthly invoice or cost table statement."
